Your electricity charges

These charges are for the electricity you used (supply) and getting that electricity to you (delivery). Rates are based on a 30 day period. When your billing period is more or less than 30 days, we prorate your bill accordingly.

Electricity you used during this 29 day billing period from mm/dd/yyyy to mm/dd/yyyy
Rate: EL1 Residential or Religious - Net Metering **Meter#** 0123456
 We measure your electricity by how many kilowatt hours (kWh) you use. One kWh will light a 100 watt bulb for 10 hours.
 Apr 17, 18 actual reading 5249
 Mar 19, 18 actual reading -5031
Your electricity use 218 kWh
kWh Billed 218 kWh
 For details, see Your Net Meter Summary in this bill.

► Your supply charges

Supply 218 kWh @7.9358¢/kWh	\$17.30
Charge for the electricity supplied to you by Con Edison.	
Merchant function charge	\$1.30
Charge associated with procuring electricity, credit and collection related activities and uncollectible accounts.	
GRT & other tax surcharges	\$0.45
Taxes on Con Edison gross receipts from sales of utility services and other tax surcharges.	
Total supply charges	\$19.05

Your total electricity supply cost for this bill is 8.7¢ per kWh. You can compare this price with those offered by energy services companies (ESCOs). For a list of ESCOs, visit www.PowerYourWay.com or call 1-800-780-2884.

► Your delivery charges

Basic service charge	\$16.43
Charge for basic system infrastructure and customer-related services, including customer accounting, meter reading and meter maintenance. A billing and payment processing charge of \$1.20, which may be avoided by switching to an energy services company (ESCO), is also included.

Credit Carried Forward to Next Period 0

Net Metering Summary

This table displays your [net energy usage](#) by billing period and the associated charges or credits. For example, if you produced more energy than you consumed, you will see a negative in the "Cumulative net meter energy credit" column. This will be carried forward to the next month and be deducted from the "kWh Billed" column.

Your electricity use 218 kWh

The electricity supplied to you by Con Edison or the electricity you generated back into the grid during this period. A negative number indicates a net meter energy credit for the period.

Cumulative net meter energy credit 0 kWh

The sum of your net meter energy credit(s) you earned in the current billing period and any credits from prior billing periods.

kWh billed 218 kWh

The amount of kWh you were billed for in this billing period. If you generated more electricity than you consumed in this current period and/or have a cumulative net meter energy credit from prior period(s), that credit has been applied towards your kWh Billed.

Annual true up month*

The month when an annual reconciliation is performed. For residential customers with solar, wind, or farm waste, utilities are required to perform an annual reconciliation to issue a monetary credit for any remaining net meter energy credit. The credit is converted to a monetary value based on the Company's avoided energy cost for the year. The avoided energy cost represents the wholesale price of electricity (cost to the utility).

For more information on Net Metering please visit us at:
www.coned.com/dg/Net_Metering_Billing_FAQ.asp

Annual True Up Bill

Every 12 months, any remaining balance on your account is billed to you in the form of a True-Up Bill. [If you generated more energy than you used](#), that energy will be applied as credits retroactively to any months you still had a balance. This bill resets to zero every 12-month cycle.
